

Sumit Man

Senior Technical Lead (Frontend)

Software developer with 10 years of experience specializing in frontend development. Architected and built the frontend for a loosely coupled e-commerce website and created component libraries using React, TypeScript, Vue 3, NodeJS and MySQL. Optimized performance across desktop and mobile WebView applications. Full-stack proficient, with experience collaborating with US-based clients.

Strapi (CMS) REST GraphQL Bitbucket CI/CD Storybook Rollup Webpack Android/iOS WebView
Django Angular MSSQL .NET C# Adobe Photoshop Adobe Illustrator

WORK EXPERIENCE

Senior Technical Lead (Frontend)

Paytm Insurance (One97 Communications Ltd.)

06/2020 - 10/2024

Bangalore, India

Paytm is a consumer facing payments application in India which also sells insurance on this e-commerce platform. <https://paytminsurance.co.in/>

Achievements/Tasks

- Architected a micro-frontend group of applications.
- Built the foundation in-house component and utility library consisting of a JSON driven dynamic page creator and a rule engine module in React, Vue 3 and Typescript bundled through Vite.
- Built a no-code framework for e-commerce application consisting of a "backend for frontend" in Node-NestJs with MySQL and REST APIs integrating other microservices and basic CRUD operations.
- Decoupled a monolithic repository in order to gain improvements in maintainability, developer experience, resiliency and time to market.
- Improved page load times by 3 seconds for the public facing SPA resulting in better conversion ratio.
- **Technologies:** React, Typescript, Vue 3, NodeJS, MySQL, Redis Cache, Vite, Webpack, Strapi(CMS), NuxtJS, Android/iOS Webview, Nexus artifactory.

Contact : Gaurav Sharma - +91-8447734867
